Dinosaurs don't live now.  
They did live in the past.  
These dinosaurs did live alone.

 Many dinosaurs did live in herds.  
In herds, many animals live together.

 Dinosaur herds could work together.  
This herd made a circle.  
The baby dinosaurs went inside.  
There they could be safe.

 Dinosaur herds could hunt together.  
This herd will push the big dinosaur down.  
It will be their dinner.

 Dinosaur herds could make nests together.  
This herd made a nest for eggs.  
The big dinosaur kept the nest safe.

 Dinosaurs don't live now.  
They did live in the past.  
These dinosaurs did live in herds.

## Think and Share

Read Together

1. What happens first, next, and last when herds hunt together?

First

Next

Last

2. How did the herd help the baby dinosaurs stay safe? Reread page 5 to check your answer.
3. Find the contraction on page 3.
4. What can you tell about dinosaurs from the picture on page 3?
