Weather helps us learn about the seasons. Does it always feel the same outside? Oh no, not when the seasons change.

Good-bye, winter!
Spring is here.
It's warmer than before.

Good-bye, spring!
Summer is here.
It's the hottest time of all.

Good-bye, summer!
Fall is here.
It's cooler now.

Good-bye, fall!
Winter is here.
It's the coldest time of all.

Think and Share

Read Together

1. What season comes after fall?

2. Think about spring where you live. What did you know about spring before you read this book?
3. Find the word in this book that has a hyphen. Write the word on your paper. How many times did you find the word in this book?
4. How do you think the sky looks on a day like the picture on page 8?

How does it feel outside today?
The weather could be just right!
But it won't stay the same.
Seasons change!
